

Sushi Candle Kit

Makes 15 Sushi Candles

You will need:

- Craft mat or cutting board
- Pizza cutter or utility knife
- Metal edge ruler

Cut each beeswax sheet into 1" strips measuring 1"x8". Take the colored strips (green, orange and yellow) and cut them into thirds, ending up with 15 small strips in each color. Next, roll each 1/3 colored strip into pieces that look like this:

Place one of each of the colored rolls around the wick and lightly press together.

This is the center of your sushi piece!

Now let's wrap it up! Take 2 1/2 strips of the white wax and roll it around the center, pressing lightly and evenly as you go.

Finally, take 1 strip of the black and wrap evenly around the white for your "seaweed" wrapper! Tear off any excess black wax and press the edges together to finish.

That's it! You've just made your own Sushi candle! Pass the wasabi!

Have fun and enjoy!

For safety's sake, remember:

Each candle will burn about 2-3 hours. Never leave a burning candle unattended. Burn candles in a suitable holder. Keep wick trimmed to 1/4 inch. Place away from drafts. Keep out of reach of children and pets!
